MOI COMMUNITY CALL #11

Building What Comes Next

11

ON THE AGENDA

Dev updates, marketing & what's new

HIGHLIGHTS

Latest SDK & protocol releases

FORMAT

Dev + marketing updates

DEV UPDATE

Engineering Updates I

js-moi-sdk v0.7.0

RELEASED

- New js-moi-identifiers package (LogicId, AssetId, ParticipantId)
- New js-moi-asset package — MAS0, MAS1, MAS2 standards + custom asset driver
- Multi-key wallet support — add/remove keys, sub-accounts, multi-sig signing
- New BrowserProvider for wallet access & management
- Fixed nested-struct encoding bug in ManifestCoder
- Test coverage expanded ~100 → 361 tests across 19 packages

DEV UPDATE

Engineering Updates II

go-moi v0.16.0

RELEASED

- Added support for storage costing
- KBFT performance improvements

MOI Agents SDK v0.1.1

RELEASED

- Agent Registry & Retrieval support

MARKETING

Marketing Updates

01 Humanized Podcast

Episode 4 going live soon — doubling down on short-form content across channels.

02 Community Calls & Engagement

11 months of consistency built this community. The last call peaked at around 60 live viewers — a strong start to the live-call practice.

03 Game Night — Scavenger Hunt

The new Game Night format just wrapped, built to drive higher engagement and participation.

THANK YOU

Until Next Time

- Thanks to the MOI community for showing up
- More SDK releases, podcasts, and campaigns ahead
- Join us — come build on MOI
