MOI COMMUNITY CALL #13 · AUGUST 2026

Building in Public
Protocol, Product & Growth

13

ON THE AGENDA

Storage costing, access control & everything we shipped

COMMUNITY

Builder Series, Agent Launchpad & marketing

WHERE WE'RE HEADED

Coinfest Asia — Bali, Aug 20–21

The August Release

GO-MOI · PISA · COCO · JS SDK

Storage Costing

State is no longer a free side effect of execution — it is a resource you buy up front.

- A storage grant reserves bytes, paid in **KMOI**
- Writes consume it; unused bytes are refunded
- Fuel and storage are now separate dimensions
- Built into go-moi, PISA, Coco & the JS SDK

SHIPPED ACROSS ALL FOUR SDKS

ACCOUNT-LEVEL POLICY

Access Control

Account-level policy, enforced by the protocol rather than by convention.

- A logic writing to your account needs permission
- Self-access is always allowed; foreign writes **denied by default**
- Policies live on your account — only you change them
- Enforced for storage today; assets & keys next

RELEASED · ASSETS & KEYS IN PROGRESS

Everything That Shipped

Eight releases across six repos in a single week — storage, access control and the tooling around them.

01	**go-moi**	storage, access, read locks	v0.12.0
02	**go-pisa**	VOLPAY / VOLRES, metering	v0.8.0
03	**cocolang**	payer clause, Actor()	v0.9.0
04	**js-moi-sdk**	policy builders, auto-fund	v0.8.0
05	**agent-registry**	new Logic ID	v0.3-rc1
06	**voyage**	wallet sign-in	v0.9.0
07	**voyage**	on-chain registration	v0.8.2
08	**moi-wallet**	multi-account picker	v0.1.5

VALIDATORS · ACTION REQUIRED

Moving to MOI Wallet

Voyage now authenticates through MOI Wallet. If you used the old Voyage login, here is the move.

MIGRATION

Five steps

1. Install **MOI Wallet** — browser extension or mobile app
2. Choose “Import an existing wallet” and enter your seed phrase
3. Open Voyage and click **Login**
4. Pick **Browser extension** or **Mobile wallet** in the modal
5. Select your account, then **Sign & Authenticate**

CONTINUITY

Your account comes with you

- Import the **same seed phrase** you used with the old login
- Voyage identifies you by **moi_id** — same wallet, same profile, history & settings
- **Extension:** Chrome, popup approval
- **Mobile:** QR scan, managed under App Drawer → DApp Connections

Voyage will never ask for your seed phrase. Only ever enter it inside the official MOI Wallet app or extension.

DEVELOPER COMMUNITY

MOI Builder Series

A weekly series that walks builders through the protocol, one working example at a time.

- **6 episodes** now live on YouTube
- Bounties running for community builders
- A weekly series teaching how to build on MOI

NEW EPISODE EVERY WEEK

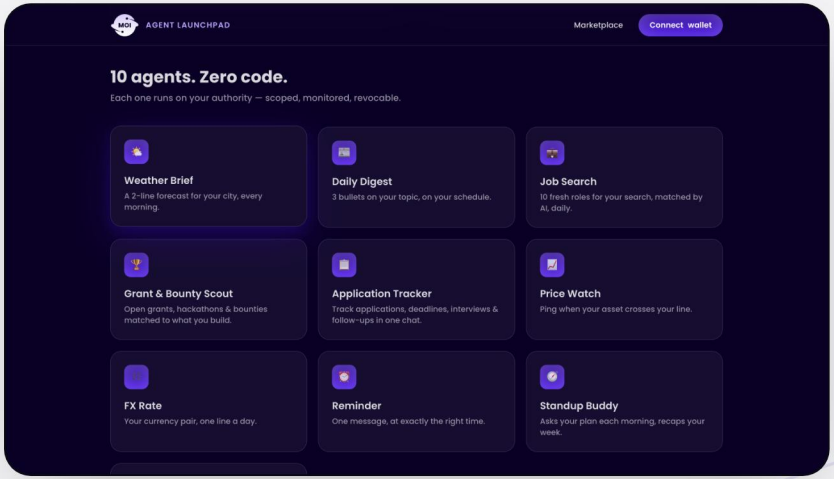

DEVELOPER COMMUNITY

MOI Agent Launchpad

Pick a template, sign a grant with your MOI Wallet, and your agent is live on chain.

- Now live on MOI
- Spin up and launch agents on MOI

LIVE

Proofly

FOUNDATION

Core Infra

The identity and registry layer everything else sits on.
